

Bandlaguda Inputs For Newsletter CLASS VI – X MARCH 23rd TO APRIL 29th

✓ **Robotics Workshop:**

TA Robotics Workshop was conducted by Next Education on 23rd and 24th March. It was based on STEM (Science, Technology, Engineering, Mathematics) Technology. Students were given a basic training and a good hands-on for two days on Robotics. Students from Class VII participated. Students participated with great energy and enthusiasm during those 2 days workshop.

✓ **Art Education:**

Class VI students were so excited when they were informed to bring materials for doing Art Education. They brought all types of materials and made different pictures.

✓ **Summer Camp**

A summer camp was started in the campus on April 28th. It is organised to go on till May 12th. Many interesting activities like swimming, basketball, skating, dance, art&craft were conducted for the campers by the PETs, external coaches and teachers of TSBG in the campus. Watching them enjoy themselves brought much joy and happiness to all who were with them.

✓ **Subject Enrichment Activities:**

English Role-play:

Class VIII understood the depth of obstinacy of the camel when they put up a role-play based on the first chapter in their supplementary reader – How the Camel got the hump.

Science:

Class VI students enthusiastically participated in a group activity wherein they collected all types of cereals, pulses and spices and made beautiful charts putting in a lot of effort.

Class VII students prepared charts in groups. While one group prepared a chart on Autotrophic Nutrition, another prepared one on Heterotrophic mode of Nutrition. In this way they understood Nutrition in plants.

Class VIII students collected different types of fabrics both natural and synthetic and were able to identify its importance.

Social Science:

Class VIII students prepared an item using natural resources.

✓ Club Activities:

Literary Club (English):

Class VIII – X:

1. Class IX and X club members learnt the song 'Everything at Once' by Lenka and enjoyed the rhythm of similes.
2. Class VIII club members attempted to make a Computer presentation on Figures of Speech – Simile, Metaphor.

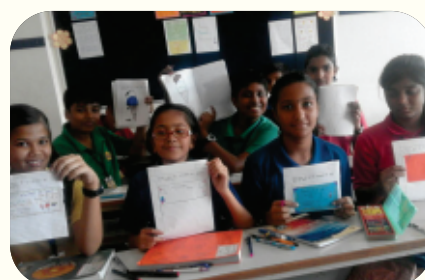

Class VI and VII:

The club members gave their self introduction and then actively participated in the Elocution on the topic **ENGLISH AS AN UNIVERSAL LANGUAGE**. It was a good start and the students shared their views on why they have chosen this club.

Literary Club (Hindi):

While the Class VI – X students wrote a paragraph on 'Importance of Discipline in Students', Class VIII – X students additionally made an advertisement to promote an imaginary product.

Literary Club (Telugu):

While the Class VI and VII students enjoyed riddling each other, Class VIII – X students worked their debating skills to express their views on 'Regional Language – To Learn or not to Learn'

Math Club:

Class VIII to X:

- 1) Introduction to Math Lab
- 2) Discussion of topics that can be dealt in Math Lab
- 3) Discussion of points of concurrence
- 4) To find centroid of a triangle by paper folding and to learn its properties

Class VI and VII:

- 1) The information about few mathematicians and their achievements are given to the students. They've also learned the uniqueness of Ramanujan's number, which is 1729.

Students also shared what they know about mathematicians like Ramanujan and Euclid.

- 2) The students are given by a 4X4 magic square to solve, which when added row wise, column wise and

diagonally should give 34 as total, in all 28 ways.

Students enjoyed in solving that square and two of them came out with the solution.

Science Club:

Class VIII – X

After a formal introduction of teachers and students on the first day, the students were asked to express their expectations from the club. Later, an agenda on the different activities planned in the club was outlined to the students.

ECO Club:

Class VI VII

As a first step, explanation about eco club was given and then students prepared paintings related to the environment and decorated Bulletin Board.
