

From the Correspondent's desk

Dear Students and parents ,

Greetings of the season ! "Education is our passport to the future ,for tomorrow belongs to the people who prepare for it today " Education and academics are important for a successful life but skill development in students helps them become independent thinkers and encourages them to plan for their future. Students develop readiness to face challenging situations in their future ,as it contributes to holistic growth , self confidence, problem solving abilities ,time management and development of oneself. The comprehensive skill set includes Cognitive, digital, technical and emotional skills . One of the goals of NEP 2020 is to equip our youth with vital skills and knowledge to enable them to thrive in a technologically driven society. In this dynamic, ever changing ,globalized world,it is imperative that students are exposed to STEAM education that combines Science &Technology Engineering ,Arts and Math. This approach enables the students to do critical thinking and analysis and develop their problem-solving skills. We would like our students to be well prepared to face technological challenges in life . Hence, we have introduced Robotics, coding and AI as part of skill education for our students of classes VI to X .We do hope that our students not only enjoy these classes but also benefit, hone their skills and show their mettle in this area too !

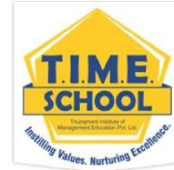

Best wishes,

Mrs.Jayashree Iyer

Correspondent,

T.I.M.E.SCHOOLS

From the Principal's desk

Dear parents and children,
It is always a pleasure connecting with all through 'Ripples'. World is changing in a fast-paced manner. We, as parents, are preparing our children and as school, acquainting them to all the latest know - how, technologies, softwares, trends, career options and challenges. My question is - are we preparing them for life? Our parenting, mentoring style- does it align with the actual requirement- I am afraid-it is not!! I get children coming to my office for a small scratch .They are scared of a small wound. Patience is a word from the past .The EQ - emotional quotient is unmonitored -resulting in hurling abuses, quarrels .We need to teach them the golden dictat of co existence, of patience, humility and love. I want the space for children to be unpolluted, unbiased, a pure space of learning with fun, excitement, enthusiasm and an ever lasting eagerness or hunger to know more. Let us, as adults, create that beautiful space for them so that they become worthy citizens of this mother earth.

With hope in heart and prayer on my lips

Regards,
Vijaya Sudhakar
Principal

Education Excellence Conclave Award winners!!

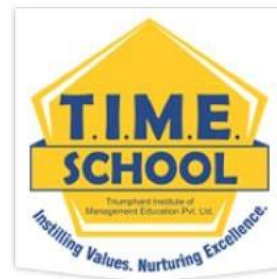

Our beloved principal ma'am received the Leadership award by LogIQids for her exceptional dedication and leadership.

School Clap Go 🖐️🖐️🖐️🖐️...

**Our school received the Sustainability Superstar Award.
LET'S CONGRATULATE OURSELVES**

From the Head Boy- Sreekar Bhardwaj

The vision of T.I.M.E. School

“T.I.M.E. School is a place that nurtures the values and morals of students and provides them with impeccable subject knowledge and cultural finesse. The students of time are not only academic achievers, but also equally talented in music, dance, literature, art and sports. The school has teachers and staff who are dedicated and consider work as their form of worship. As a student, I am amazed with the discipline and unity among me and my fellow Timeans. This brilliance is the brainchild of our correspondent, principal, and vice-principal. And again, I, as the Head Boy of T.I.M.E.School, ensure all who are reading, that T.I.M.E.School instils values, discipline and dedication. Thus, making the students’ vision crystal clear.”

The Leaders
Take command

From the Head Girl- Pihu Bhattacharya

As Head Girl, I am excited to share my vision for our school’s journey towards excellence. Central to this vision is our commitment to practical learning— an approach where education is not just learning from textbooks but by bringing real-world applications into our daily studies. Integrating innovative, hands-on experiences that make learning both engaging and relevant is very important. We must embrace a strong focus on learning, taking personal responsibility for our growth and contributing to a respectful, disciplined environment. Together, let us aim for an educational experience that not only fosters intellectual curiosity but also upholds the values of diligence and integrity. With everyone’s commitment, I am confident we can achieve remarkable success.

From the Sports Captain- Samarth Boity

I'm thrilled to discuss my goals for our athletic journey this year, in my capacity as Sports Captain. By focusing on practical, hands-on experiences that integrate real-world applications into our training, We hope to improve our sports program. We need to adopt a strong work ethic, accept accountability for our own growth, and support an environment in the team that is based on discipline and respect. Together, by developing our abilities and preserving the virtues of tenacity and cooperation, we may accomplish remarkable feats. With everyone's commitment, I'm sure we can succeed to even greater heights.

Our SPORT'S
Enthusiasts
Are all set to take our
school to greater
heights..!

From the Sports Vice-Captain- Manha Riyaz

As Sports Vice Captain, I'm excited to share my vision for our athletic journey this year. Our goal is to elevate our sports program through a commitment to practical, hands-on experiences that bring real-world applications into our training. We will focus on innovative techniques and strategies that make our practices not only effective but also engaging.

Equally important is our collective dedication to each other. We must embrace a strong work ethic, take personal responsibility for our development, and contribute to a team environment built on respect and discipline.

By nurturing our skills and upholding the values of perseverance and teamwork, we can achieve exceptional results together. With everyone's dedication, I am confident that we can reach new levels of success.

C.V. RAMAN

Captain- Susan Rayarala

Vice captain- Tanvi Alenoor

As the House Captain of C.V. Raman House,

I envision my house as a place where everyone feels valued, supported, and inspired. My goal is to cultivate a strong sense of belonging by celebrating individual strengths while working together towards shared goals. I believe in fostering an environment of mutual respect, open communication, and collaboration. I am committed to organizing events and activities that build camaraderie and contribute to our academic and personal growth. By working together, we can create a house that is not only successful but also a place we are proud to call home.

As the Vice Captain of C.V. Raman House

It is both an honour and a privilege to serve such a talented and spirited group of individuals who form the C.V. Raman House.

I have learnt the true meaning of leadership. It is not just about guiding and directing; it is also about listening, understanding, and supporting each other. We have created an environment where everyone feels valued and heard, where every idea matters, and where every effort is recognized.

Rabindranath Tagore

Captain- Janvi Routh

Vice captain – Phiroza Riddhi Rayudu

As the House Captain of Rabindranath Tagore House

I am honoured to serve and represent our incredible Rabindranath Tagore House . Together, we will strive for excellence in academics, sports, and extracurricular activities. My goal is to foster unity, sportsmanship, determination and a positive spirit. Where there is passion, there is purpose. Let's support one another, celebrate our successes, and learn from our challenges. I believe, that together we can achieve greatness and make our house and the school proud. Let's give our best in every endeavour and make this year memorable for everyone.

As the House Vice Captain of Rabindranath Tagore House, my goal is to inspire and support each one of the students of my house to make them reach their fullest potential. I believe that with dedication, teamwork, and a positive attitude, we can achieve remarkable success in all areas—academics, sports, and extracurricular activities. I promise to listen to your ideas, address your concerns, and work closely with our house captain to create an environment where everyone feels valued and motivated. Let's make this year unforgettable.

Sarojini Naidu

Captain- Shashank Bakshi

Vice Captain-Advaith K

As the House Captain of Sarojini Naidu House, I aim to take the performance of my house to greater heights. I want my house to shine brighter than the sun, not only this year but in the upcoming years too. My goal is to unveil the real potential of each member of my house. Let's take steps to form the best house in the school. Let's try our best not to take the light from others, but to spread the light of our own. The spirit of doing the best with unity is the first step towards achieving success.

Vice Captain of Sarojini Naidu House. I knew I was fond of music and it only became profound when I held my guitar at the age of 6! The deeper I went to learn the instrument and hone it, the more I realised my strengths, my weaknesses and how to work around them. Once I understood this intricate yet inseparable relationship, I realised that music has found me. This very mantra keeps me grounded, focused, and constantly striving to improve. Music has become my sanctuary, a place where I can express myself freely and find solace. Through countless hours of practice and dedication, I've learned the value of perseverance and discipline. It is my dream to share such an experience with all the students in Sarojini Naidu house and to keep them striving towards their goals

Swami Vivekananda

Captain-Vipul Nagari

Vice captain- Fazileth Imran

As the Captain of Swami Vivekananda House,

My role extends beyond mere leadership, it encompasses the nurturing of talent in my house. My commitment to my team is unwavering, rooted in the belief that our collective success will help every student grow. I strive to be a guiding force, encouraging open communication, and setting a standard of integrity and dedication. By investing time in understanding the requirements of my house, we aim to build a resilient and adaptive house. Every challenge we face is an opportunity for growth & improvement.

As the Vice Captain of Swami Vivekananda House,

I understand that my role is important not only for my house activities but also in ensuring that each and every child gets an opportunity to be able to express himself/herself and exhibit his/her talent. This allows every student to nurture courage and be confident in his/her approach.

Birla High School Mukundapur holds exchange programme

Time flies and as we keep turning the pages of the calendar we realize how quickly one-year changes into another. Amidst the cultural diversity, our country India has to offer, the students of Birla High School Mukundapur and T.I.M.E School, Hyderabad, came together recently to embrace the joys that these celebrations bring. With celebrations comes responsibilities and the cultural exchange was enhanced by a dimension of environmental awareness and a responsibility of the youth towards it.

The students of classes IV, V and VI met their fellow learners in a virtual exchange programme and spoke about Regional New Year, Earth Day and Save Water respectively. This Google Meet aimed to foster environmental awareness, promote sustainable practices, and encourage global collaboration in addressing environmental challenges. The

students of both the institutions engaged in thought provoking conversations followed by song, dance and recitations. As climate crusaders, the students from Birla High School-Mukundapur then presented a thought-provoking skit addressing water scarcity and its far-reaching consequences. They introduced the Save Water movement and emphasized the significance of the Ganga Action Plan. Additionally, students unveiled a collage featuring various awareness programs aimed at curbing water pollution,

themed 'Bonded by Cleanliness and United by Ganga'.

This collaborative effort between the two schools exemplifies the power of youth-driven initiatives in fostering environmental consciousness and advocating for sustainable practices. The shared commitments of participants reaffirmed their dedication to protecting the Earth and building a sustainable future for generations to come thus keeping their promise as young citizens of 'Ek Bharat Shreshth Bharat'.

T.I.M.E school Hyderabad and Birla High School Mukundapur came together to embrace the joy that celebrations bring.

A showcase of the young generation's responsibility towards the traditions and cultures of India.

Discover Depth in Every Stanza.

As the rain comes, it cleans down the
mess

It never judges anyone
A peaceful mindfulness
makes me enjoy my own company.
The calmness is not overwhelming
the world values the extroverts
the rain values me.

Though an introvert, one is not alone
With its various versions of you with you
the fear of getting judged
comes down as the rain on the ground
and the lightning warns me
to stay away from the evils of my own.

The rain is not dark
it brings greenery to the world
and to my heart.
