

**T.I.M.E. SCHOOL, KANDLAKOYA**

From the Correspondent's Desk .....

Seasons Greetings to all .

“ Curiosity is the wick in the candle of learning “ -W.A .Ward

Children are naturally curious and their curiosity is what prompts them to explore the world around them , As they explore curiously , they are engaged and focussed and are not only able to retain the new Information but also to apply it in new situations.

Curiosity helps stimulate the brain

Hence the best way to help a student learn is to stimulate the curiosity . Without curiosity ,we might teach ,but the student might not learn .

For instance , have you ever wondered why all the school buses are coloured Yellow ? Different colours of light have different wavelengths and energy . Yellow colour scatters less and hence is more visible to our eyes ,both during day light as well as low light .

Additionally the colour yellow raises a sense of caution. Being visible even to the periphery vision , yellow bus informs all road travellers to be cautious .

Isn't it an interesting fact ,children ?

As learners we must look for answers to all that is around us, those which we take for granted .

Had Dr C.V. Raman not wondered why the sea water was blue and looked for answers ,he might not have discovered 'Raman effect 'and been the recipient of the Nobel prize.

Do not be afraid to ask questions and seek answers . You will find yourself walking the right path gathering knowledge all through your journey .

Have fun exploring and learning !

Curiosity

From the Principal's Desk.....

Dear Readers,

As we journey together through this academic year, I want to take a moment to reflect on the role of attitude, determination and positive thinking in the pursuit of learning. Success in studies is not simply a result of intelligence but of the mind set and resilience we bring to our challenges. A positive attitude toward studies, combined with a dedicated approach to preparation, creates a solid foundation for future accomplishments.

We as educators and parents, share equal responsibility in nurturing these qualities in our children. Our roles intersect in shaping their characters, guiding them towards discipline, self-belief and a love of learning. Parents are the child's first teachers and the values taught at home lay the groundwork for their approach to life. This nurturing continues at school where we instil in them a sense of responsibility, kindness and respect for others. By working in harmony, we can create an environment that fosters growth and positivity.

In today's digital age, social media has a powerful influence on our students. While it opens doors to learning and connecting, we must also acknowledge its distractions. Constant exposure to digital content can at times, erode focus and drive away core essentials of serious academics. It is important for us to address and guide our students, on how to benefit from technology without letting it diminish their academic pursuits or personal growth. Recognizing the advantages and disadvantages of our digital world, helps students to use it constructively rather than allowing it to hinder their progress.

Equally concerning is the erosion of morals and values in our society. We are witnessing a transformative era, but as we progress we must ensure that our children's education remains rooted in integrity, respect and empathy. Positive influences are crucial for young minds and as a community, we must provide this through our actions, teachings and expectations.

Let us together encourage our children to prioritize their well-being, studies and personal development. With the right attitude, guidance and encouragement, they will be well-prepared to embrace the challenges and opportunities that lie ahead.

Warm regards

Mr. Phanindra Bora

T.I.M.E. School, Kandlakoya

# OUR PRIDE

Education Icon of the year 2024 award to Mr. P. Bora, Principal by EduLeaders.

Ms Nagasai (Hindi Teacher) was conferred Inspiring Teacher Award 2024, for her unstinted dedication and service.

Blood donation drive at our school campus.

Kudos to Aleti Vaishnavi for winning the Merit Position in Global Art.

Our students participated in KSHAMA - Inter School Competition and brought accolades to the school.

## Earth's Second Moon

**AS WE ALL KNOW THAT EARTH'S PRIMARY AND PERMANENT MOON IS "LUNA." BUT EARTH HAS CAPTURED A SECOND TEMPORARY MOON ON SUNDAY (SEPT. 29).**

**Overview of PT5**

- > **Discovery:** PT was discovered on November 23, 2023, and is classified as a temporary moon or a mini-moon of Earth.
- > **Size:** PT5 is believed to be just 37 feet wide.
- > **Orbit:** Its orbit is influenced by the gravitational pull of the Earth and, eventually, it will escape this orbit.
- > **Duration:** Similar to other temporary moons, PTS is expected to remain in orbit around Earth till November.
- > **Significance:** The existence of objects like PT helps astronomers understand the dynamics of near-Earth objects (NEOs) and the gravitational interactions between Earth and small celestial bodies and provide insights into the formation and evolution of our solar system.
- > **Visibility:** The mini-moon cannot be seen with the naked eye.

## The Importance of Kindness in School

- Kindness in school helps create a positive and welcoming environment for everyone.
- Simple acts like helping a classmate, sharing, or offering a compliment can make someone's day better.
- When students are kind, it reduces bullying, builds friendships, and makes learning more enjoyable.
- By spreading kindness, we make our school a happier place where everyone feels valued.
- Kindness shapes compassionate individuals and enhances the school community.

**Moral: A little kindness can make a big difference.**

## Artificial Intelligence

(AI) refers to machines simulating human intelligence to perform tasks such as learning, problem-solving, and decision-making.

AI systems use algorithms, data, and computing power to recognize patterns, process information, and improve over time.

There are different types of AI, from narrow AI, which specializes in specific tasks, to general AI, which could potentially perform any intellectual task a human can.

Key AI applications include:

- **Automation:** Tools like WiPath automate routine tasks like data entry and customer support.
- **Healthcare:** AI technologies like IBM Watson assist in diagnostics and personalized treatments.
- **Creative AI:** Platforms like DALL-E generate art from text, while Runway ML aids in video editing.
- **Miscellaneous AI Systems:** OpenAI's ChatGPT and Google Assistant enhance human-computer interactions through natural language processing and voice assistance.

## A New Dawn in Medicine: mRNA Technology Takes Centre Stage

- In a dazzling breakthrough, mRNA technology-first hailed during the COVID-19 pandemic-is set to transform cancer treatment.
- Tailored to the unique genetic signatures of tumors, these cutting-edge vaccines unleash the immune system's power like never before.
- With rapid development capabilities, mRNA is ushering in an exciting era of personalized medicine, where hope shines brighter than ever.

## Ratan Tata: A Legacy of Leadership and Philanthropy

**Ratan Tata**, born on December 28, 1937, was a prominent Indian industrialist and former chairman of the Tata Group. Joining the Tata Group in 1962, he became chairman in 1991, leading the conglomerate to global prominence through key acquisitions like Jaguar, Land Rover and Corus Steel. Known for his innovative vision, Tata emphasized sustainable practices and corporate social responsibility, directing significant resources to philanthropy through the Tata Trusts. His commitment to ethical business has set a benchmark in corporate governance, inspiring many in the business world. Despite stepping down in 2012, Ratan Tata's influence endures, as he continues to champion entrepreneurship and social welfare, making him a respected figure in India and beyond. He took his last breath on 9th October, 2024 at the age of 86. All of India remembers him as a visionary and will never forget his contribution to the country.

## The Importance of Time Management

Effective time management enables students to strike a balance between academic responsibilities, extracurricular activities, and personal time. By setting realistic goals and deadlines, students can avoid procrastination and stay focused on their objectives. Moreover, good time management fosters discipline and cultivates a sense of accountability, leading improved academic performance.

## Safety Rules for Diwali

- 1. Use Firecrackers Responsibly:** Buy certified firecrackers, light them in open spaces, and keep water nearby.
- 2. Wear Safe Clothing:** Opt for cotton clothes to avoid fire hazards.
- 3. Supervise Children:** Ensure children are always supervised when lighting fireworks.
- 4. Avoid Burst Crackers in Hand:** Place firecrackers on the ground before lighting them.
- 5. Be Cautious with Diyas and Candles:** Keep diyas away from curtains or flammable materials.

### The Diwali Vibe!

As twilight falls, the diya gleams  
The lights shining with those happy beams.  
The sound of fireworks piercing my ear,  
But with excitement and no fear!  
By now, you know the festival, don't you?  
Yes, of course Diwali isn't it?  
The victory of light, over darkness take flight,  
Meanwhile, the divine being calls us to address and bless us in sight.  
Come, muster up, light up your diyas, collect your lights  
Let's together celebrate this Diwali.  
I bet you got that vibe!  
I bet you got that vibe!

### दीपावली आई !!!

दशहरा खत्म होते ही शुरू होती है तैयारी  
सबके घर में होती है साफ-सफाई  
दीपावली आई दीपावली आई !!!

चमकने लगते है घर,साफ होने लगते हैं मकान  
अलग - अलग नक्षीदार दीये की हांडी से होती है रोशनाई  
दीपावली आई,दीपावली आई !!!

रसोई घर से आने लगती है खुशबू  
माँ बनाती है सबकी पसंदीदा मिठाई  
दीपावली आई,दीपावली आई !!!

पहले दिन जल्दी उठकर नहा धोकर होते है तैयार  
बड़ों का आशीर्वाद लेकर एक - दूसरे को देते है बधाई  
दीपावली आई, दीपावली आई !!!

अगले दिन होती है माता लक्ष्मी की पूजा  
फटाको और फुलझड़ियों से गूँज जाती है गलियाँ  
और दियों से होती है रोशनाई  
दीपावली आई,दीपावली आई !!!

फिर आता है अटूट रिश्तोवाला दिन  
बहन करती है आरती और भेंट वस्तु देता है भाई  
दीपावली आई, दीपावली आई !!!

## The Jungle Adventure of Anil, Andrew and Arif Continues.....

"Stay calm and don't provoke it," Anil advised. "We need to scare it away." Together, they shouted and banged their makeshift weapons, creating a lot of noise. Startled, the boar turned and ran off into the jungle. The friends sighed in relief, realizing how close they had come to danger. The next morning, they set out to find fresh water and food. They used their knowledge and resourcefulness to identify edible plants and fruits. Areef spotted a small stream, and they refilled their water bottles, grateful for the fresh, cool water. As they explored, they marked their path with makeshift signs to avoid getting lost. They encountered various challenges, including crossing a narrow ravine and avoiding a snake that slithered across their path. Despite the obstacles, they supported each other and used their combined skills to navigate the treacherous terrain. As night fell again, they found a more secure spot to camp, this time in a natural cave. They built a fire at the entrance to keep animals away and settled in for another night in the jungle. On the second day, they continued their journey, hoping to find a way back to civilization. Their spirits lifted when they heard the distant sound of a helicopter. They rushed to an open clearing and started waving their arms and using a reflective piece of metal to signal for help. The helicopter circled overhead and finally spotted them. Within minutes, a rescue team descended, and the three friends were lifted to safety. They were taken to a nearby town where they were given food, water, and medical attention. Back home, news of their adventure spread quickly. Their families and friends were relieved and proud of their bravery and resilience. The local community organized a small celebration to honor their courage and resourcefulness. "Anil, Andrew, and Areef showed incredible bravery and teamwork in the face of danger," the mayor said during the ceremony. "Their story is a testament to the power of friendship and determination." The three friends smiled, grateful for the recognition but even more thankful for each other's support during the ordeal. Their adventure in the jungle had tested their limits, but it had also strengthened their bond and taught them valuable lessons about survival and courage. The story highlights the bravery, resourcefulness, and teamwork of Anil, Andrew, and Areef as they navigate through the challenges of being stranded in a jungle. Their adventure serves as an inspiration to others, showing how courage and friendship can help overcome even the most daunting obstacles.
